

Air Conditioner Rental - Air Conditioner Installers - Air Conditioner Hire - Heater Hire

## Space Saver Electronic Air Cleaner

- A commercial air cleaner specifically designed for rooms and areas where people work or relax. It is the ideal air cleaner for installations such as restaurants, bars and taverns, offices, conference rooms, computer rooms, designated smoking areas, medical institutions, waiting rooms and retail outlets.
- Coanda air pattern
- Hinged access
- Remote variable speed control (option)
- Forever Filter
- Re-circulates indoor air
- Designed to be mounted to a solid or into a suspended ceiling. When mounted from a suspended ceiling it extends less than 100 mm into the room, dropping into one-half of a standard 60 x 120 cm ceiling tile. The low profile design provides
- Capacity to help remove up to 95% of tobacco smoke, dust, pollen, lint, bacteria and mold spores from recirculated indoor air. It features
- Low Profile

### Technical Details

Air Flow (m3/hr)	680 - 1000	
Controls	3 speed rotary switch & indicator	
Fan	Direct Drive Propeller Fan	
Power Consumption (kW)	0.29	
Dry Weight (kg)	32	
Dimensions (mm)	Height	407
	Width	578
	Depth	578
