LC 2000 - Power Fan 760mm 20500 cmh

- Ideal where the requirement is a stream of moving air to cool in factories, warehouses, workshops, gymnasiums and other large areas. Fitted to a wide stance steel frame, the fan can offer 360° movement about the horizontal plane and automatically locks into position via the side spindles, once the an angle has been selected. The whole unit is mounted on two rubber tyre wheels
- Powerful 20500 cubic meters per hour airflow - cools and ventilates
- Fan offers huge range of movement about the horizontal plane
- Runs off standard 13A, 3 pin plug power supply
- Quiet operation (74dba)

Technical Details

Air Flow (m3/hr)	20,500	
Electrical Supply	230 volt /1 Phase / 50 Hz	
Noise Level (dbA)	74	
Dry Weight (kg) - Large Fan	40	
Dimensions (mm) - Large Fan	Height	1,150
	Width	930
	Depth	840
