

Air Conditioner Rental - Air Conditioner Installers - Air Conditioner Hire - Heater Hire

CDT 35 with Tank - Dehumidifier 35 ltr / day

- Low energy, high performance Dehumidifier 35 lt / day
- Non ozone depleating Refrigerant - protecting the environment.
- Ergonomical design for ease of handling and transportation.
- Robust construction for durability in the most demanding applications.
- Fitted with an electronic control which ensures automatic defrosting of the evaporator coil at low temperatures.
- All functions are shown on a easy to read display with hour run-meter. External parts are powder enamelled for protection against corrosion.
- Easily cleaned air filter is supplied as standard.
- The unit can be fitted with a lifting hook for safe hoisting by crane.
- The built in water container is closed a fitted with a handle, allowing easy emptying without any spillage.
- As an extra option the units can be fitted with hydrostat for pre selected humidity control.

Technical Details

Air Flow (m3/hr)	400	
Dehumidification Efficiency	@ 20°C /60% RH(kw)	0.68kwh/l
Dehumidifier Capacity @ 20°C	18/24	
Dehumidifier Capacity @ 28°C	25/24	
Dehumidifier Capacity @ 30°C	38/24	
Operating Range - Humidity (RH)	40-100%	
Operating Range - Temperature (°C)	3-30	
Power Consumption (kW)	@ 20°C /60% RH(kw)	0.51
Power Requirement (ph/v/Hz)	1-230/50	
Water Tank Capacity (ltr)	12.5	
Dry Weight (kg)	52	
Dimensions (mm)	Height	960
	Width	600
	Depth	520
